Steelway is a leading engineering and fabrication company that specialises in the manufacture of steel, aluminium and GRP products. We have a dedicated workforce which prides itself on the quality of products produced. Based in Wolverhampton we have 4 operating divisions, two manufacturing plants, our own fleet of vehicles and CSCS registered installation teams that provide an unrivalled service worldwide.

Our sales and design teams are equipped with the latest technology systems available. With 3D CAD design facilities in conjunction with communication and IT systems we are able to give our customers a rapid response to enquiries and orders.

We have an established an Integrated Management System in accordance with PAS99 for quality, environmental and health and safety management systems. In addition we are members of CHAS, RoSPA, Constructionline and SAPCA and hold Link Up approval with proof.

The company also holds a number of Kitemark Licences and a number of other system and product certifications.
